Dear Andy:

Enclosed find one brochure on the Identi-Kit. If you open this to the very center, you can see the sketch of the item referred to as the Desk Identi-Kit, which is an additional concept of the carrying case.

We are also enclosing one set of printed films. This set is incomplete but will serve its purpose for comparison with the photographic films.

I am also enclosing a preliminary copy in rough draft form of the instruction manual for your Order "A".

Very truly yours,
